

Sakshi Sharad Pabrekar

Full Stack .NET Developer | ASP.NET Core & Web API Developer

LinkedIn | GitHub | spabrekar24@gmail.com | +91-8369907194 | Mumbai, India

PROFESSIONAL SUMMARY

Full Stack .NET Developer with 1.5+ years of experience designing, developing, and maintaining enterprise web applications using C#, .NET Core, ASP.NET MVC, Web API, Entity Framework Core, LINQ, and SQL Server. Hands-on experience building scalable RESTful APIs and responsive front-end interfaces using HTML5, CSS3, JavaScript, jQuery, and Bootstrap. Skilled in implementing authentication and authorization, writing optimized SQL queries and stored procedures, and applying object-oriented programming (OOP) principles and design patterns. Exposure to Agile/Scrum methodologies, unit testing, version control (Git), and basic CI/CD and cloud deployment concepts (Azure/AWS), with a strong willingness to deepen expertise in these areas. Passionate about writing clean, maintainable code and continuously learning modern full-stack technologies.

PROFESSIONAL EXPERIENCE

Software Developer | Netbeans Systems Limited, India

Feb 2026 – Present

- Resolve real-time issues on the MDL website using C# and ASP.NET Core, ensuring smooth functionality and performance.
- Design, develop, and integrate REST APIs across various modules of the MDL website to support seamless data flow and feature functionality.
- Write and optimize SQL queries to manage, update, and maintain the website's database and content.
- Collaborate with stakeholders to ensure accurate and consistent updates to content entries across the website.

Web Developer Intern | Mazagon Dock Shipbuilders Limited (MDL) , Mumbai

Mar 2025 – Feb 2026

- Conducted a comprehensive accessibility audit of the MDL website, identifying issues across multiple pages and resolving them using HTML, CSS, and JavaScript to improve compliance and usability.
- Debugged and fixed real-time UI issues, including non-functional login pages, buttons, and tab navigation, enhancing overall site reliability and user experience.
- Built front-end modules for a Contract-Based Management System using React.js, including login pages for automated pass registration, renewal, and approval workflows.
- Developed role-based access modules for HR, Safety, and Admin users, streamlining permission-based functionality across the system.
- Began learning C#, ASP.NET Core, MVC, and SQL, applying foundational concepts through hands-on practice and small real-world problem-solving tasks.

PROJECT EXPERIENCE

AI Blog Hub – AI-Powered Blogging Platform

- Designing and developing a full-stack AI-integrated blogging platform with secure user authentication (JWT, email verification, forgot password) and role-based access for users and admins.
- Building RESTful APIs for blog creation, editing, and management, including draft/publish workflows, tagging, categorization, and thumbnail uploads.
- Integrating OpenAI API to power AI-assisted features such as title generation, content drafting, SEO keyword suggestions, summarization, and grammar improvement.
- Implementing search and filtering functionality (by title, category, tags, trending, and most viewed) along with user interaction features like likes, comments, favorites, and author following.
- Developing an admin dashboard for user management, content moderation, and analytics (total users, blogs, active users, monthly statistics).
- Designing a normalized SQL Server database schema using Entity Framework Core to support scalable data relationships across users, blogs, categories, comments, and analytics.

Attendance Viewer Web Application

- Developed a full-stack attendance management application with CRUD functionality for adding, viewing, updating, and deleting attendance records.
- Built RESTful APIs using ASP.NET Core Web API to handle attendance data operations and serve them to the React front end.
- Designed and implemented SQL Server database with optimized queries to store and retrieve attendance records efficiently.
- Created a responsive React front end for users to view, filter, and manage attendance data in real time.

TECHNICAL SKILLS

- **Programming Languages:** C#, JavaScript, HTML5, CSS3
- **Frameworks & Libraries:** ASP.NET Core, ASP.NET MVC, Web API, Entity Framework Core, LINQ, React.js, jQuery, Bootstrap
- **Database:** SQL Server (Queries, Stored Procedures, Database Management)
- **API Development:** RESTful API Design, Development & Integration
- **Web Development:** Responsive UI Design, Accessibility (WCAG Standards), Cross-Browser Debugging
- **Concepts:** Object-Oriented Programming (OOP), Design Patterns, Role-Based Access Control (RBAC)
- **Tools & Version Control:** Git
- **Methodologies & Deployment (Foundational Knowledge):** Agile/Scrum, Unit Testing, CI/CD, Docker, DevOps, Cloud Deployment (Azure/AWS)

EDUCATION

Bachelor of Engineering – Computer Engineering | MCT Rajiv Gandhi Institute Of Technology, Mumbai
2025

Diploma – Computer Engineering | Dr. Babasaheb Ambedkar University Lonere, Raigad
2022
